NIST Open Machine Translation Evaluation 2002-2009
Arabic to English History

Legend:
- primary condition (systems trained on same data)
- contrastive condition (unlimited training data allowed)

Y-axis: BLEU (0 to 0.7)

X-axis: 2002, 2003, 2004, 2005, 2006, 2008, 2009
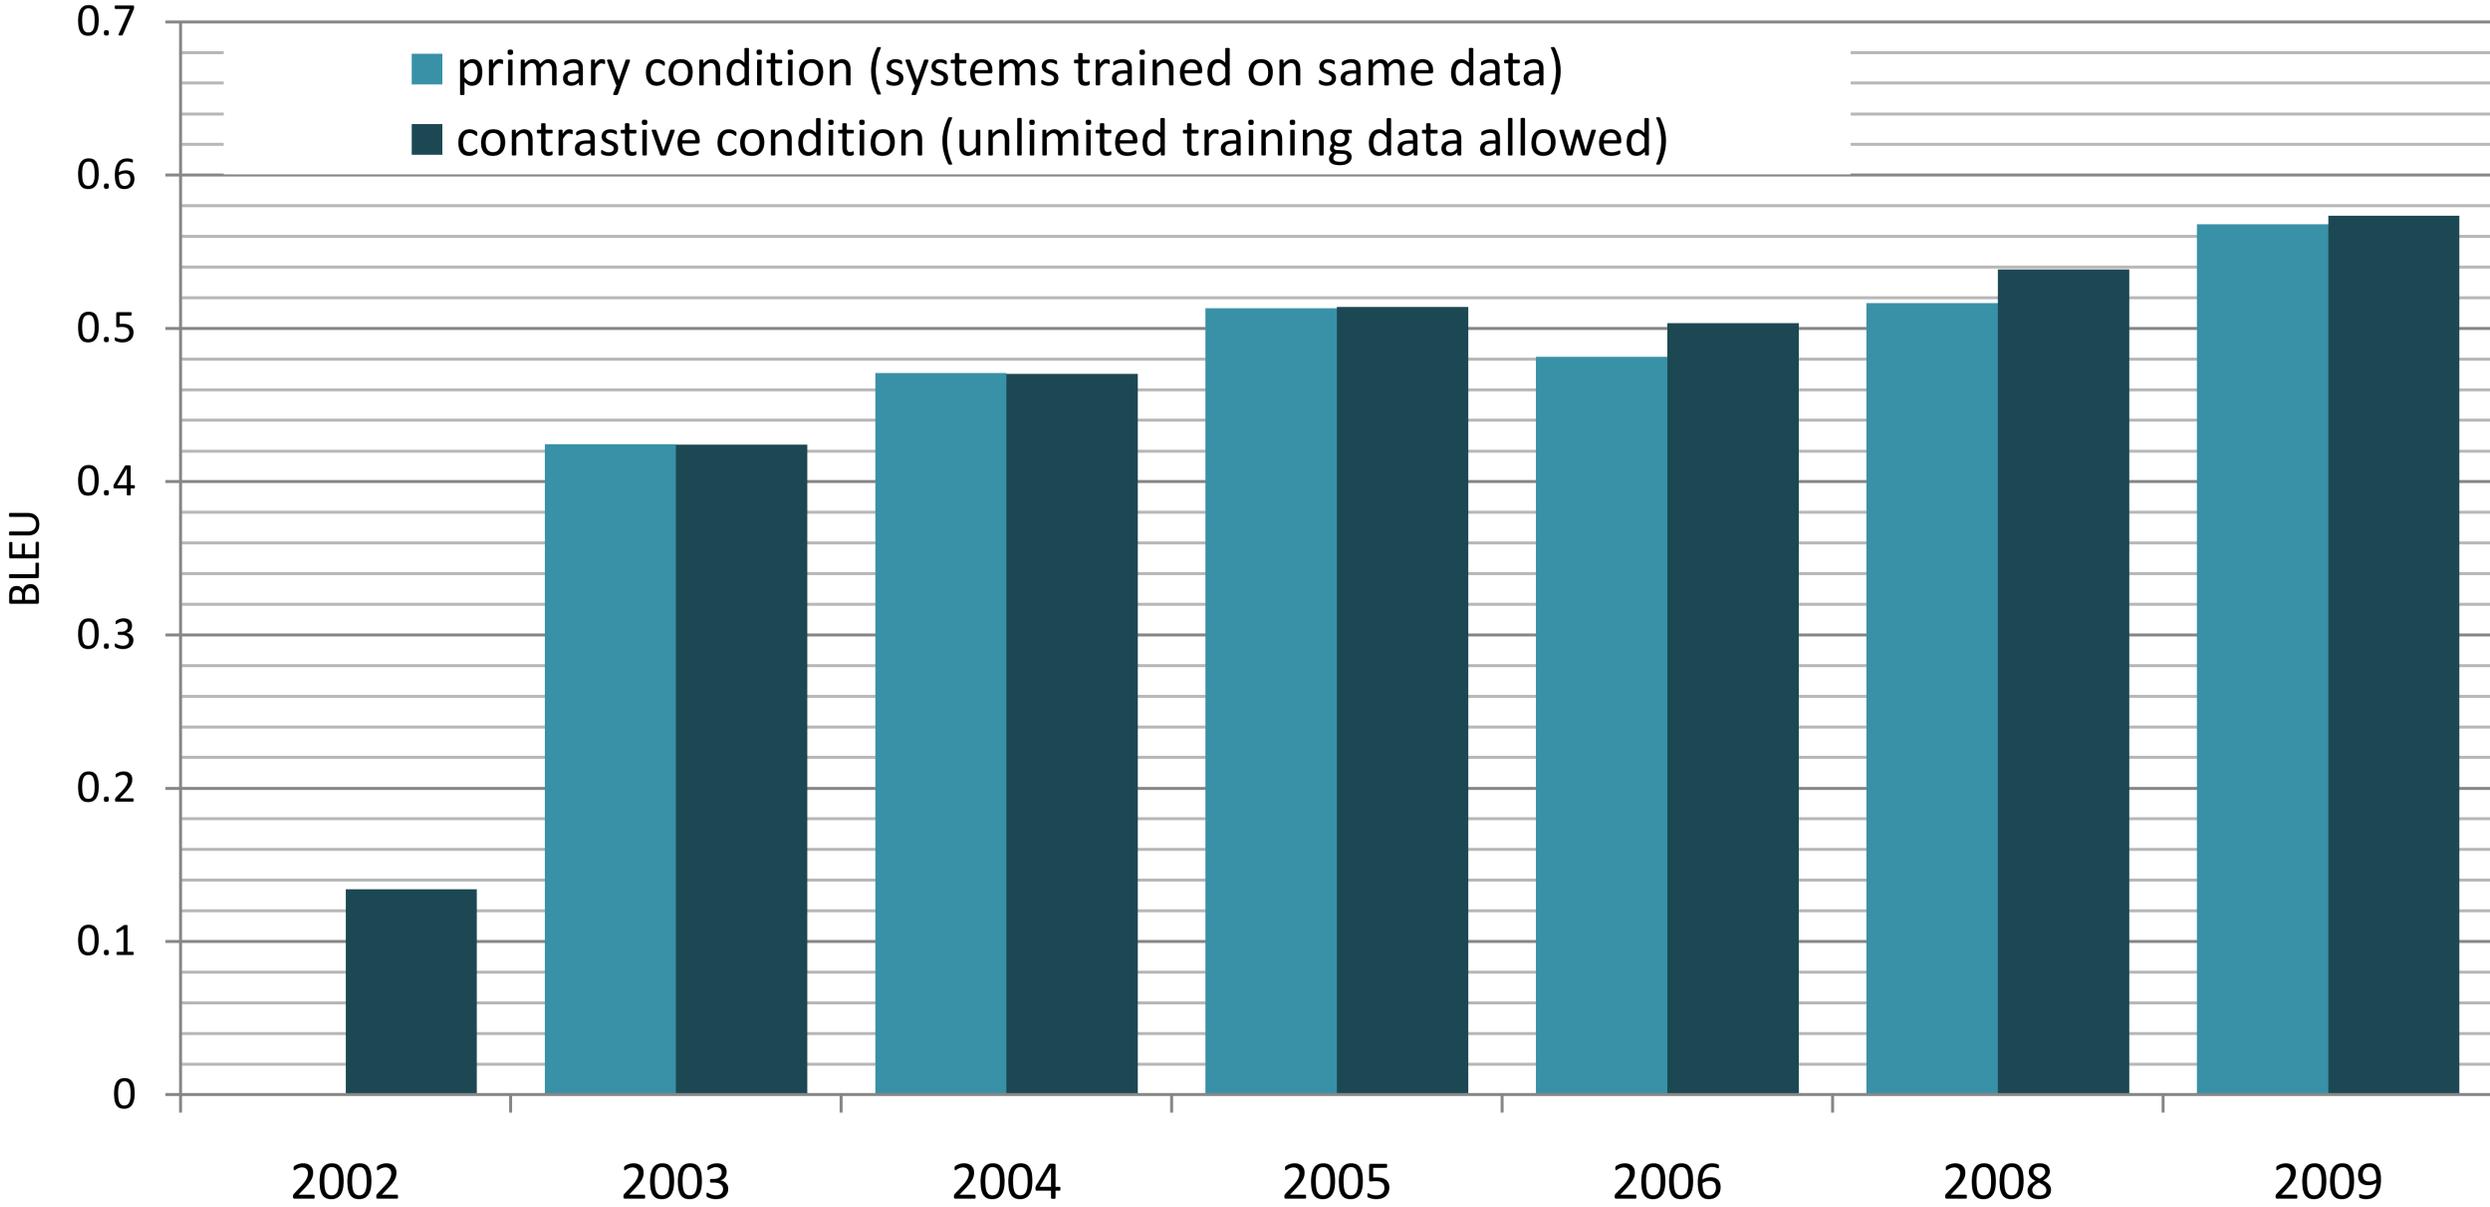

Highest scoring official submissions
NIST Open Machine Translation evaluations 2002-2009
Newswire (well-formed structured data)

BLEU scores:
- Higher scores show progress
- Counts matching strings of words between two translations (system and reference)
