Federal Computer Security Managers' Forum Quarterly Meeting
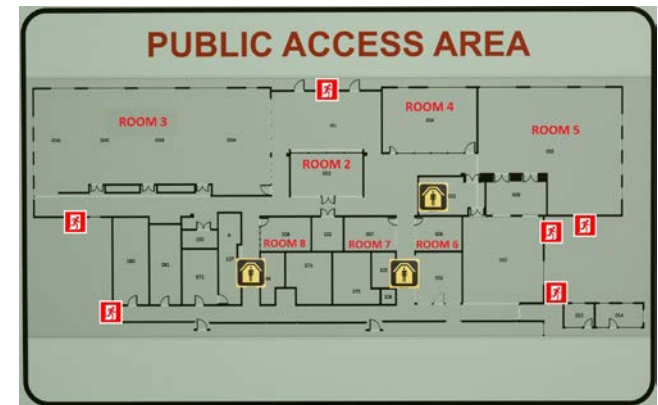

November 2, 2017

National Cybersecurity Center of Excellence

Safety/Evacuation

Evacuation Emergencies

What Will Happen During an Evacuation Event?

- A building-wide alarm will sound
- Verbal instructions over the building's public address (PA) system will follow shortly after the alarm
- Exit the conference room and head for the nearest exit (**Red Signs – Upper Right Map**)
- If the Security Guard is close by and accessible, ask for further instruction
- Once outside the building, swiftly walk toward the designated meeting area near the posted sign stating "Evacuation Meeting Area" (**Yellow Sign – Lower Right Map**)

Shelter-In-Place (SIP) Emergencies

What Will Happen During an Evacuation Event?

- A building-wide alarm will sound
- Verbal instructions over the building's public address (PA) system will follow shortly after the alarm
- Exit the conference room and head for the nearest SIP hallway or room (**Yellow Signs – Upper Right Map**)
- If the Security Guard is close by and accessible, ask for further instruction

NIST-Guest Wireless Network

- NIST-Guest is broadcasted; Use this network to connect your device.

    1. Connect wirelessly to SSID: NIST-Guest
    2. Open your browser, as needed.
    3. If using iOS (iPhones and iPads), access a web page that does not use https:// (for example, http://www.apple.com) to get to the Access and Use Policy.
    4. If using Android devices, a web page will automatically open with the Access and Use Policy.

- Review the complete Access and Use Policy by scrolling to the bottom of the Window. Acknowledge that you agree to the terms identified by selecting ACCEPT.

- Device access will be blocked if (1) it is a NIST-owned device; (2) malware or other malicious activity is detected; or (3) inappropriate online behavior is detected.
