

FIPS 201 Products and Roadmap

Mobile-Mind[®]

Mobile-Mind, Inc.

Mary Cronin, President

Scott Guthery, CTO

June 28, 2005

Corporate Overview

Mobile-Mind[®]

- Five year history of developing standards-based smart card solutions and secure embedded systems applications for government and enterprise customers
 - ❑ Reference implementation of GSC-IS and SP 800-73 (PIV) specifications
 - ❑ Common Access Card applets
 - ❑ MULTOS card applications
 - ❑ GlobalPlatform implementations
 - ❑ Java Card™ virtual machine implementations and applications
 - ❑ SIM and USIM mobile applications
- All engineering and development work done at our Boston area headquarters

Standards Expertise

- Active in international and US standards groups for smart card and mobile (SIM) specifications
 - Member, International Committee for Information Technology Standards (INCITS)
 - Technical Editor for ISO/IEC 24727 Part 2
 - Member of US TAG to ISO/IEC/JTC1/SC17/WG4
 - Technical Editor for ETSI TS 31.131 (C-language binding to (U)SIM API and ETSI TS 34.131 (Test Specification for C-language binding to (U)SIM API
 - Associate Member GSM Association

FIPS 201 and PIV II Solutions

Mobile-Mind[®]

➤ Today

- ❑ PIV II (“End Point”) implementation on MULTOS card
- ❑ SP 800-73 compliant Application Programming Interface (API)
 - Microsoft library compatible with PC/SC and Visual Studio .NET
- ❑ Integration of our PIV II card application with Identity Alliance’s **ID Ally** for secure logon and digital signing

FIPS 201 and PIV II Solutions

➤ Six Month Roadmap

- ❑ PIV II implementation on JavaCard™ and native smart card operating system (September 2005)
- ❑ PIV II implementations available on contactless and dual interface cards for combined physical and logical access (October 2005)
- ❑ Biometric match-on-card implementation (November 2005)
- ❑ Compliance and interoperability testing and pilot implementation support (October 2005)
