

19th National Information Systems Security Conference Proceedings

This is the table of contents to the papers, panel statements and presentations which were submitted in electronic form. Each paper was converted to Adobe's Acrobat format, and a link was made from the table of contents entry to the corresponding Acrobat file. Every attempt was made to generate a legible file. Most papers will not be identical to the wordprocessor or printed original, since no two systems, programs or printers generate identical output. Papers which were submitted in PostScript format as generated by TeX/LaTeX and DVIPS used bitmapped rather than scalable fonts. Those papers will be most legible if they are printed out, or if the display monitor is set to the highest possible resolution (e.g. 1600x1200).

The table of contents is derived from the source for the printed version. The numbers on the left should correspond with the page number of the printed version. The label before each entry, e.g. *paper001* corresponds to the directory containing the Acrobat files, which will have the *.pdf* extension. If the entry is prefaced by *[none]*, the document was not submitted in electronic form, or we were unable to successfully generate the Acrobat file.

Bequai

Keynote Speech: August Bequai, Esq. iii

Refereed Papers

Criteria & Assurance Track A

[none]

E4 ITSEC Evaluation of PR/SM on ES/9000 Processors 1
Naomi Htoo-Mosher, Robert Nasser, Nevenko Zunic, *International Business Machines*
Julian Straw, *Syntegra, UK*

paper041

A High-Performance Hardware-Based High Assurance Trusted Windowing System 12
Jeremy Epstein, *Cordant Inc.*

paper066

WWW Technology in the Formal Evaluation of Trusted Systems..... 22
E.J. McCauley, *Silicon Graphics Computer Systems, Inc.*

paper052

The Certification of the Interim Key Escrow System 26
Ellen Flahavin, Ray Snouffer, *National Institute of Standards and Technology*

paper035

Configuration Management in Security related Software Engineering Processes 34
Klaus Keus, Thomas Gast, *Bundesamt für Sicherheit in der Informationstechnik, Germany*

paper028

The Department of Defense Information Technology Security Certification
and Accreditation Process (DITSCAP) 46
Jack Eller, *DISA*
Mike Mastrorocco, *Computer Security Consulting*
Barry C. Stauffer, *CORBETT Technologies, Inc.*

paper031 **Powerpoint Presentation**

Trusted Process Classes..... 54
 William L. Steffan, *Tracor Applied Science, Inc.*
 Jack D. Clow, *SenCom Corporation*

[none]

Design Analysis in Evaluations Against the TCSEC C2 Criteria..... 67
 Frank Belvin, Deborah Bode and, Shun Razvi, *The MITRE Corporation*

paper010 **Powerpoint Presentation**

System Security Engineering Capability Maturity Model and Evaluations:
 Partners within the Assurance Framework..... 76
 Charles G. Menk III, *Department of Defense*

paper026_027

Applying the IC SEC Guidelines to a Real-Time Embedded System Environment 89
 Jim Alves-Foss, Deborah Frincke, Gene Saghi *University of Idaho*

Electronic Commerce **Track B**

paper072_073_074

EDI Moves from the VAN to the Internet..... 98
 Brian Bradford, *University of Maryland*

paper029

An International Standard for the Labeling of Digital Products 109
 Victor E. Hampel, *Hampel Consulting*

paper002

The Business-LED Accreditor - OR...How to Take Risks and Survive..... 123
 Michael E J Stubbings, *Government Communications Headquarters, UK*

paper064

Integration of Digital Signatures into the European Business Register..... 131
 Helmut Kurth, *Industrieanlagen Betriebsgesellschaft mbH, Germany*

Joyal

Industrial Espionage Today and Information Wars of Tomorrow 139
 Paul M. Joyal, *INTEGER Inc.*

paper005

B is for Business: Mandatory Security Criteria & the OECD Guidelines for Information Systems Security..... 152
 Prof. William J. Caelli, *Queensland University of Technology, Australia*

paper230_062

Marketing & Implementing Computer Security..... 163
 Mark Wilson, *National Institute of Standards and Technology*

paper038 **Powerpoint Presentation**

Secure Internet Commerce - Design and Implementation of the Security Architecture
 of Security First Network Bank, FSB 173
 Nicolas Hammond, *NJH Security Consulting, Inc.*

In Depth

Track C

paper008

Powerpoint Presentation

- Automatic Formal Analyses of Cryptographic Protocols.....181
Stephen H. Brackin, *Arca Systems, Inc.*

paper014

- Surmounting the Effects of Lossy Compression on Steganography194
Daniel L. Currie, III, *Fleet Information Warfare Center*
Cynthia E. Irvine, *Naval Postgraduate School*

paper018

Powerpoint Presentation

- Key Escrowing Systems and Limited One Way Functions202
William T. Jennings, *Southern Methodist University & Raytheon E-Systems*
James G. Dunham, *Southern Methodist University*

paper001

- The Keys to a Reliable Escrow Agreement215
Richard Sheffield

Internet

Track D

paper023

- The Advanced Intelligent Network - A Security Opportunity221
Thomas A. Casey, Jr., *GTE Laboratories, Inc.*

paper024

- Security Issues in Emerging High Speed Networks.....233
Vijay Varadharajan, *University Of Western Sydney, Australia*
Panos Katsavos, *Hewlett Packard sponsored student, UK*

paper045

- A Case Study of Evaluating Security in an Open Systems Environment250
Daniel L. Tobat, *TASC*
Errol S. Weiss, *Science Applications International Corporation*

paper020

- Internet Firewalls Policy Development and Technology Choices259
Leonard J. D'Alotto, *GTE Laboratories Inc.*

[none]

- A Case for Avoiding Security-Enhanced HTTP Tools to Improve Security for Web-Based Applications.....267
Bradley J. Wood, *Sandia National Laboratories*

paper012

- Applying the Eight Stage Risk Assessment Methodology to Firewalls276
David L. Drake, Katherine L. Morse, *Science Applications International Corporation*

paper076

- Lessons Learned: An Examination of Cryptographic Security Services in a Federal Automated Information System288
Jim Foti, Donna Dodson, Sharon Keller, *National Institute of Standards and Technology*
