

Dana Smith Leaman
Program Manager,
National Voluntary Laboratory Accreditation Program
National Institute of Standards and Technology

Mrs. Leaman serves as a Program Manager with the National Voluntary Laboratory Accreditation Program (NVLAP) in the Information Technology Security Testing program. She provides assistance in the daily accreditation operations and serves as a staff contact for laboratories performing Cryptographic and Security Testing as well as the Common Criteria Testing. Mrs. Leaman began performing assessments for NVLAP in May 2009.

Previously, she was employed with the American Association for Laboratory Accreditation (A2LA) and assisted with the management of the calibration accreditation program and the assessment of the calibration laboratories within that program. She also performed ISO/IEC 17025 quality system assessments in the testing fields as well.

From August 2000 until December 2008, Mrs. Leaman was employed by the American Association for Laboratory Accreditation (A2LA). During this employment, she began as a Laboratory Services Officer and was promoted to Calibration Accreditation Manager.

Mrs. Leaman joined the NVLAP staff as Program Manager in December 2008.

Mrs. Leaman is a member of the NCSL International Board of Directors currently serving as the Vice President for Documentary Standards. She has served on the Board since 2005 serving terms as the Vice President of the Southeastern US as well as Vice President of the Northeastern US. She also participates as a tutorial instructor at the Measurement Science Conference and the NCSLI Workshop and Symposium on topics pertaining to accreditation.

Mrs. Leaman has a Bachelor of Science degree with a major in Chemistry from Austin Peay State University in Clarksville, TN. In March 2009, Mrs. Leaman completed training and has been approved as an ISO/IEC 17011 Peer Evaluator.
