

Patricia Wolfhope
Biometrics Program Manager
Department of Homeland Security

Ms. Wolfhope is a Biometrics Program Manager with the Human Factors and Behavior Sciences Division of the Department of Homeland Security (DHS), Directorate for Science and Technology.

Ms. Wolfhope is responsible at DHS for managing, testing, integrating and delivering biometric solutions to federal, state and local end users.

Prior to joining DHS, Ms. Wolfhope supported the Department of Justice (DoJ), National Institute of Justice (NIJ) sensor and surveillance programs which included sensor technologies for video & through-the-wall surveillance, concealed weapons detection, license plate recognition, thermal imaging and gunshot detection systems.

Prior to NIJ, she supported the Defense Advanced Research Projects Agency's micro-systems technology programs.

Ms. Wolfhope holds a Bachelor of Science degree in Mechanical Engineering from the University of Pittsburgh.
