# Cryptographic Hash Workshop
## *October 31 – November 1, 2005*

## James Randall, *RSA Security Inc.*
**jrandall@rsasecurity.com**

**BIOGRAPHY**:  James Randall is the Manager of Cryptographic Algorithms and Standards at RSA Laboratories in Bedford MA where he is the main point of contact for developments related to cryptographic algorithms such as the RSA algorithm, elliptic curve cryptography, and hash functions. He has over 20 years experience in information security standards for banking and financial services, business development, and project and product management. Prior to joining RSA he held positions at IBM, Entrust and Spyrus. He was also a partner in Randall Consulting.
