

Cryptographic Hash Workshop

October 31 – November 1, 2005

Thomas Shrimpton, *Portland State University*
teshrim@cs.pdx.edu

BIOGRAPHY:

Tom Shrimpton is an Assistant Professor of computer science at Portland State University. His research is focused on provable security and he has published on various topics such as symmetric and public-key encryption, key distribution, and cryptographic hashing. He has also published papers on statistical signal processing and information theory. Dr. Shrimpton received his Ph.D. in 2004 from the University of California, Davis; his MS from the University of Maryland, Baltimore County; and his BS from Virginia Tech.
