

Philip R. Reitinger

Philip R. Reitinger is Microsoft's Director, Trustworthy Computing - DC. Mr. Reitinger works with government agencies and partners and to help enhance the security of critical infrastructures and to further Microsoft's Trustworthy Computing Initiative – a long-term, company-wide initiative to promote the values of reliability, security, privacy, and responsible business practices.

Mr. Reitinger currently serves on the Industry Executive Subcommittee of the President's National Security Telecommunications Advisory Committee (NSTAC), where he chaired the Next Generation Networks Task Force. He is the Vice-President of the Information Technology-Information Sharing and Analysis Center (IT-ISAC), and serves on the Executive Committee of the IT Sector Coordinating Council (IT SCC), as well as the Federal Government Leadership Forum and the National Strategic Policy Council on Cyber and Electronic Crime (of the National Governors Association Center for Best Practices).

Mr. Reitinger holds a law degree from Yale Law School, and a bachelor of engineering degree in electrical engineering and computer science from Vanderbilt University.

Before joining Microsoft in January 2003, Mr. Reitinger was the Executive Director of the Department of Defense's Cyber Crime Center (DC3) in Linthicum, Maryland. DC3 included DoD's Computer Forensic Laboratory, Computer Investigations Training Program and Cyber Crime Institute, and provided state-of-the-art electronic forensic services and cyber investigative and operational support services to DoD.

Earlier, Mr. Reitinger served in the Department of Justice's Criminal Division as Deputy Chief of the Computer Crime and Intellectual Property Section. His work included: investigating and prosecuting computer crimes; developing computer

crime and technology training for law enforcement personnel; outreach to the private sector; protecting critical information infrastructures; and developing policy regarding the fight against high-technology crime. In 1996 while working as a trial attorney for the Criminal Division, Mr. Reitingger was detailed for two months to the Organization for Economic Cooperation and Development in Paris, France, to work on the Cryptography Policy Guidelines. In 1997, he was detailed for six months as a special assistant U.S. attorney to the U.S. Attorney's Office, Eastern District of Virginia. Before joining the Criminal Division, Mr. Reitingger was a Justice Department trial attorney with the Federal Programs Branch of the Civil Division.

Mr. Reitingger is the former Chair of the Group of Eight's High-Tech Crime Subgroup, and the Vision and Policy Committee of the National Cyber Crime Training Partnership. He has also served on the Information Assurance Technology Analysis Center's Steering Committee, and the cybercrime advisory boards of the National White Collar Crime Center and the Joint Council on Information Age Crime.
