October 1-2, 2009 • University of Maryland Campus

The core mission of the C3[®] Conference is to inform the educational community about the ethical, legal, safety, and security implications of technology use and illustrate how educators and parents can apply these concepts to their own setting. Tutorial sessions include practical applications that can be immediately applied to your home or classroom setting.

Participants will hear from state and local educators, law enforcement, internet safety/security curriculum providers and researchers, and policy makers on a broad range of topics to include: current and pending legislation, educational initiatives available, the latest "hot topics" to include cyberbullying, identity theft and spoofing, internet safety provider updates, online reputation management, newly released online interactive simulations and games that promote responsible online behavior.

Security Awareness Contest

WHAT'S IT ALL ABOUT?

The EDUCAUSE and Internet2 Higher Education Information Security Council, with sponsorship by the National Cyber Security Alliance (NCSA) and CyberWatch, is seeking creative and educational videos and posters on information security to be part of a national campaign to increase information security awareness at colleges and universities.

WHAT'S IT ALL ABOUT?

If your video or poster is selected you'll get exposure for your work on the EDUCAUSE security web site (educause.edu/security), from media announcements, and as part of campus security awareness campaigns across the country. And that's not all — winners receive cash prizes:

Gold:	Silver	Bronze:
\$1,500	\$1,000	\$500

WAYS YOU CAN PARTICIPATE:

- Training or instructional video (2 minutes or less)
- Public service announcement (PSA) (30 seconds or less)
- Poster

Submissions should address information security problems and/or suggest effective ways of handling them.

Deadline to enter: March 31, 2011
