Dear FISSEA Members and Friends,

We have exciting news—FISSEA has joined GovLoop and we want you to join our group!

While the FISSEA listserv has been around for over 10 years, it's time we capitalize on new listserv technology—social networking. We started a FISSEA discussion group on the government's social networking site, GovLoop (www.govloop.com).

Note: The FISSEA listserv will continue to exist, but will be used for announcements only.

Please join GovLoop and our FISSEA group for lively discussions about the information security awareness, training, education, and certification environment. This new "FISSEA Community of Interest" can use the GovLoop FISSEA discussion area to post questions and share information.

For more information on FISSEA, please refer to our website: www.FISSEA.org

Follow these easy steps to join our FISSEA GovLoop Community. Our FISSEA Executive Board Social Networking Guru, Al Lewis, has volunteered to assist if you have any questions or problems registering (email: aljlewis@gmail.com 301-706-5262).

Step	Action
1	Go to: www.govloop.com and select "**sign up**" on the top right corner. 2	In the "**Sign up for GovLoop**" window, enter your information, and then click on the "**Sign up**" button.

3	In the "**Create your own profile**" window, enter your information and then click on the "**Join**" button. 
4	You will receive an email from GovLoop when your membership is confirmed. You can still use GovLoop and sign up for the FISSEA group, so click **Continue**. 5	In the Join the Community window, click on **member sign in**. You will then be asked to sign in with the email address and password you submitted for GovLoop.
6	After Signing in, click on the tab "**Groups**".

	7	In the search bar, enter **FISSEA** and then click on the **magnifying glass**.
8	Click on the word **FISSEA**.

9	Select "**Click here to request access**".
10	Click **Send Request**.

11	FISSEA will acknowledge your request. In the meantime look at our discussions.
12	When you have GovLoop and FISSEA membership you can post messages.
