

Hi FISSEA Members, (*email from Susan Hansche, FISSEA Workshop Chairperson*)

Part Two of our Distance Learning Workshop will be held July 11th at NIST headquarters in Gaithersburg, Maryland. Part One was held on May 23rd when we discussed with the ISS LOB Shared Service Centers the future of Distance Learning for Information Systems Security Awareness Courses. The July 11th workshop will focus on distance learning for role-based training and education. We have a full agenda planned with nine speakers, topics include the NASA approach to role-based training using a web-based delivery that closely follows the NIST SP800-16 matrix, the VA web-based training for various roles, the U.S. Army Virtual Classroom program, two presentations on just-in-time training, and four presentations on information systems security education options via distance learning. Most importantly, it's FREE to FISSEA members -- and FISSEA membership is FREE! I look forward to seeing you there.

7th FREE WORKSHOP

Reaching the Cyber Student: Distance Learning for Information Systems Security (ISS) Role-Based Training and Education

Wednesday, July 11 *

* Pre-registration is required by July 6th

Presented by: National Institute of Standards and Technology and the U.S. Department of State Information Assurance Training Team in collaboration with the Federal Information Systems Security Educators' Association (FISSEA).

Overview: Distance Learning (or e-Learning or distance education) is defined as providing course material to students who are not onsite. From the earliest known correspondence courses to the iPod delivery of today, distance learning is seen as an important delivery vehicle for federal information system security role-based training and education programs. During this workshop, our speakers and panelists will discuss their best practices and lessons learned. Following the presentations, we will have an interactive discussion and sharing of ideas, thoughts, and experiences about distance learning.

Who Should Attend: Training and management professionals interested in or responsible for information system security training and education programs within the federal sector.

When: Wednesday, July 11, 2007 (pre-registration by July 6 required)

Time: 9:00am 12:00pm

Where: National Institute of Standards and Technology

NIST Lecture Room A

100 Bureau Drive

Gaithersburg MD 20899-8930

Cost: Free to FISSEA members!

Attendance: Maximum, 50 people, first-come, first served

You must pre-register by July 6, 2007

Reservation contact: Peggy Himes, peggy.himes@nist.gov (301) 975-2489

Provide your name, agency, position title, email address, and phone number

7th FREE WORKSHOP

AGENDA July 11, 2007

Distance Learning For Role-based Training and Education

9:00-9:10am Welcome

- Susan Hansche, Department of State/Nortel Government Solutions
- Mark Wilson, FISSEA Chairman

9:10-9:55am Role-Based Training Panelists

- Gretchen Morris, Web-based Training for IA Roles, NASA/RSIS
- Adam Rodes, Web-based Training for IA Roles, Department of Veterans Affairs/Booz, Allen, Hamilton
- John Sciandra, Virtual Training Classroom, U.S. Army/NACON

9:55-10:30am Just-in-Time Training Panelists

- Susan Hansche, Info Modules, Department of State/Nortel Government Solutions
- Beth Borko, Shorts, DISA/Carney Inc.

10:30-10:45am BREAK

10:45-11:25am Education Panelists

- Don Goff, University of Maryland University Center
- Allan Berg, Capitol College
- Paul Krasley – Joint Intelligence Virtual University/DIA

11:25-12:00pm Questions, Ideas, and Thoughts from the Audience
