Dr. Ron Ross is a senior computer scientist and information security researcher at the National Institute of Standards and Technology (NIST). His areas of specialization include security requirements definition, security testing and evaluation, and information assurance. Dr. Ross currently leads the Federal Information Security Management Act (FISMA) Implementation Project for NIST, which includes the development of key security standards and guidelines for the federal government, contractors supporting the federal government, and the United States critical information infrastructure. His recent publications include Federal Information Processing Standards (FIPS) Publication 199 (the security categorization standard), FIPS Publication 200 (the minimum security requirements standard), NIST Special Publication 800-53 (the security controls guideline), NIST Special Publication 800-53A (the security assessment guideline), and NIST Special Publication 800-37 (the system certification and accreditation guideline). Dr. Ross is also the principal architect of the NIST Risk Management Framework that integrates the suite of FISMA security standards and guidelines into a comprehensive enterprise-wide information security program.

Dr. Ross is a frequent speaker at public and private sector venues including federal agencies, state and local governments, and Fortune 500 companies. In addition to his responsibilities at NIST, Dr. Ross supports the U.S. State Department in the international outreach program for information security and critical infrastructure protection. Dr. Ross previously served as the Director of the National Information Assurance Partnership, a joint activity of NIST and the National Security Agency. A graduate of the United States Military Academy at West Point, Dr. Ross served in a variety of leadership and technical positions during his twenty-year career in the United States Army. While assigned to the National Security Agency, he received the Scientific Achievement Award for his work on an inter-agency national security project and was awarded the Defense Superior Service Medal upon his departure from the agency. Dr. Ross is a two-time recipient of the Federal 100 award for his leadership and technical contributions to critical information security projects affecting the federal government. During his military career, Dr. Ross served as a White House aide and as a senior technical advisor to the Department of the Army. Dr. Ross is a graduate of the Program Management School at the Defense Systems Management College and holds both Masters and Ph.D. degrees in Computer Science from the United States Naval Postgraduate School.
